

# 2003 Wolf Awareness Week

## Will Wolves Return to California?

Join the California Wolf Center,  
U.S. Fish & Wildlife Service and  
Defenders of Wildlife for a Special Fundraiser  
October 18th & 19th

- ◆ The reintroduction of wolves to Yellowstone National Park and Central Idaho has resulted in over 800 free-ranging wolves in our Northern Rockies, and many biologists predict a migration of these populations into neighboring states, including California.
- ◆ Our special series of events is dedicated to heightening awareness regarding wolves returning to California. The money raised will directly benefit our education programs.
- ◆ You can support the California Wolf Center by attending one of our three fundraising events.

### ALL PROGRAMS INCLUDE:

- ◆ An informative update about the California Wolf Center
- ◆ A rare opportunity to hear from experts in the field: **Nancy Weiss**, Western Director of Species Conservation at Defenders of Wildlife, **Carter Niemeyer**, Wolf Recovery Coordinator for US Fish and Wildlife Services, Idaho, and **Rick Williamson**, USDA Wildlife Services, Idaho.
- ◆ A visit with the Center's two Ambassador Wolf Packs.
